User Acceptance Testing (UAT)

Test Case Document

This document organizes the user acceptance testing of the Aumazing application by module. Each module sheet begins with an identification table and lists the test cases for that module. Test cases cover both valid inputs (happy path) and invalid inputs (negative scenarios), as well as the interactive features the child and the caregiver use.

For each test case, the tester follows the numbered procedures, enters the listed test data where applicable, and records what actually happened under Actual Result together with a Status of Pass or Fail. A failed test case is reported to the proponents, corrected, and then retested before the module is accepted.

Module 1: Login

Project Name	Aumazing: A Gamified Learning App for Children with Early Childhood Autism Spectrum Disorder
Module Name	Login
Environment	Android release build 1.3.0 (versionCode 5)
Created By	

AUM_Login_001

Test Case ID	AUM_Login_001
Test Scenario	Verify that a registered parent or guardian can sign in with an email and a password.
Pre-Condition	A registered account exists; the app shows the Log In screen.
Procedures	1. In the Email field, type the registered email address. 2. In the Password field, type the account password. 3. Tap Log In.
Test Data	Email: parent01@example.com; Password: AuMz@2026
Expected Result	The parent dashboard opens and shows the child cards (Start here, Enter Child Mode, Recommended Module, Recent Activity). The account stays signed in after closing and reopening the app.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Login_002

Test Case ID	AUM_Login_002
Test Scenario	Verify that sign-in is blocked when the required fields are empty.

Pre-Condition	The app shows the Log In screen.
Procedures	1. Leave the Email and Password fields empty. 2. Tap Log In.
Test Data	Email: (empty); Password: (empty)
Expected Result	The messages "Please enter your email" and "Please enter your password" appear; the dashboard does not open.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Login_003

Test Case ID	AUM_Login_003
Test Scenario	Verify that an incorrectly formatted email address is rejected.
Pre-Condition	The app shows the Log In screen.
Procedures	1. In the Email field, type an address without the @ symbol. 2. In the Password field, type any password. 3. Tap Log In.
Test Data	Email: parent01.gmail.com; Password: AuMz@2026
Expected Result	The message "Please enter a valid email" appears; sign-in does not proceed.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Login_004

Test Case ID	AUM_Login_004
Test Scenario	Verify that a wrong password is rejected.
Pre-Condition	A registered account exists; the app shows the Log In screen.
Procedures	1. In the Email field, type the registered email address. 2. In the Password field, type an incorrect password. 3. Tap Log In.
Test Data	Email: parent01@example.com; Password: WrongPass1
Expected Result	The error message "Invalid login credentials" appears; the dashboard does not open.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Login_005

Test Case ID	AUM_Login_005
Test Scenario	Verify that a parent can sign in with a Google account.
Pre-Condition	The app shows the Log In screen; a Google account is available on the device.
Procedures	1. Tap Continue with Google. 2. Choose the Google account in the account picker.
Test Data	A Google account signed in on the device.
Expected Result	Sign-in completes and the parent dashboard opens.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Login_006

Test Case ID	AUM_Login_006
Test Scenario	Verify that a user can continue without an account.
Pre-Condition	The app shows the Log In screen.
Procedures	1. Tap Continue as Guest.
Test Data	None.
Expected Result	The app opens in guest mode and shows the dashboard without requiring an account.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Login_007

Test Case ID	AUM_Login_007
Test Scenario	Verify that a forgotten password can be reset.
Pre-Condition	A registered account exists; the email inbox is reachable.
Procedures	1. Tap Forgot Password?. 2. Enter the registered email address and submit the request. 3. Follow the reset instructions sent to the email. 4. In New Password and Confirm New Password, type the new password. 5. Tap Update Password.
Test Data	Email: parent01@example.com; New Password: N3wPass@2026
Expected Result	The password is updated and signing in with the new password opens

	the dashboard.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Login_008

Test Case ID	AUM_Login_008
Test Scenario	Verify that mismatched new passwords are rejected during reset.
Pre-Condition	The password reset screen is open.
Procedures	1. In New Password, type a new password. 2. In Confirm New Password, type a different password. 3. Tap Update Password.
Test Data	New Password: N3wPass@2026; Confirm New Password: N3wPass@2027
Expected Result	The message "Passwords do not match" appears; the password is not changed.
Actual Result	
Status	☐ Pass ☐ Fail

Module 2: Registration

Project Name	Aumazing: A Gamified Learning App for Children with Early Childhood Autism Spectrum Disorder
Module Name	Registration
Environment	Android release build 1.3.0 (versionCode 5)
Created By	

AUM_Register_001

Test Case ID	AUM_Register_001
Test Scenario	Verify that a new parent or guardian can register an account.
Pre-Condition	The app shows the Log In screen; the email address is not yet registered.
Procedures	1. Tap "Don't have an account? Register". 2. In Full Name, type your name. 3. In Email, type an email address. 4. In Password, type a password of at least six characters. 5. Open the Data Privacy Notice and tap I Agree.

	6. Tap Sign Up. 7. In Verify Your Email, enter the six-digit code sent to the email address.
Test Data	Full Name: Juan dela Cruz; Email: juan.delacruz@example.com; Password: AuMz@2026; Code: the six digits from the email
Expected Result	The account is created, the email is verified, and the child profile setup ("Tell us about your child") opens.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Register_002

Test Case ID	AUM_Register_002
Test Scenario	Verify that an empty full name is rejected.
Pre-Condition	The Sign Up screen is open.
Procedures	1. Leave Full Name empty and fill in Email and Password. 2. Tap Sign Up.
Test Data	Full Name: (empty); Email: juan.delacruz@example.com; Password: AuMz@2026
Expected Result	The message "Please enter your name" appears; registration does not proceed.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Register_003

Test Case ID	AUM_Register_003
Test Scenario	Verify that an incorrectly formatted email address is rejected.
Pre-Condition	The Sign Up screen is open.
Procedures	1. In Full Name, type a name. 2. In Email, type an address without the @ symbol. 3. In Password, type a valid password. 4. Tap Sign Up.
Test Data	Email: juan.delacruz.example.com
Expected Result	The message "Please enter a valid email" appears; registration does not proceed.
Actual Result	

Status	☐ Pass ☐ Fail

AUM_Register_004

Test Case ID	AUM_Register_004
Test Scenario	Verify that a password shorter than six characters is rejected.
Pre-Condition	The Sign Up screen is open.
Procedures	1. Fill in Full Name and Email. 2. In Password, type fewer than six characters. 3. Tap Sign Up.
Test Data	Password: abc
Expected Result	The message "At least 6 characters" appears; registration does not proceed.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Register_005

Test Case ID	AUM_Register_005
Test Scenario	Verify that registration is blocked when the Data Privacy Notice is not accepted.
Pre-Condition	The Sign Up screen is open.
Procedures	1. Fill in Full Name, Email and Password correctly. 2. Leave the Data Privacy Notice unaccepted. 3. Tap Sign Up.
Test Data	Full Name: Juan dela Cruz; Email: juan.delacruz@example.com; Password: AuMz@2026
Expected Result	The message "Please accept the Data Privacy Notice to continue." appears; registration does not proceed.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Register_006

Test Case ID	AUM_Register_006
Test Scenario	Verify that an incomplete verification code is rejected.
Pre-Condition	Registration reached the Verify Your Email screen.
Procedures	1. Enter only three digits of the six-digit code. 2. Tap Verify Email.

Test Data	Code: 123
Expected Result	The message "Please enter the full 6-digit code." appears; the email is not verified.
Actual Result	
Status	☐ Pass ☐ Fail

Module 3: Child Profile Setup

Project Name	Aumazing: A Gamified Learning App for Children with Early Childhood Autism Spectrum Disorder
Module Name	Child Profile Setup
Environment	Android release build 1.3.0 (versionCode 5)
Created By	

AUM_Profile_001

Test Case ID	AUM_Profile_001
Test Scenario	Verify that a caregiver can complete the child profile setup.
Pre-Condition	A newly registered account, or Settings then Manage Children with the add-child action.
Procedures	1. In Child's Name, type the child's name. 2. Under Gender, select Boy, Girl or Prefer not to say. 3. Open the Birth Date picker and select the birth date. 4. Choose an avatar (for example, Bear). 5. Choose the game screen background. 6. Tap Continue. 7. Set the sound and prompt preferences, then continue. 8. Tap Continue to Dashboard.
Test Data	Child's Name: K-01; Gender: Boy; Birth Date: 04/21/2022; Avatar: Bear
Expected Result	The profile is saved, the parent dashboard opens, and the child's name appears on the dashboard.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Profile_002

Test Case ID	AUM_Profile_002
Test Scenario	Verify that required child fields cannot be left empty.

Pre-Condition	The child profile setup is open at "Tell us about your child".
Procedures	1. Leave Child's Name, Gender and Birth Date empty. 2. Tap Continue.
Test Data	All fields empty.
Expected Result	The messages "Please enter your child's name", "Please select your child's gender." and "Please select your child's birth date." appear.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Profile_003

Test Case ID	AUM_Profile_003
Test Scenario	Verify that a birth date in the future is rejected.
Pre-Condition	The child profile setup is open.
Procedures	1. Open the Birth Date picker. 2. Select a date after today. 3. Tap Continue.
Test Data	Birth Date: 12/25/2027
Expected Result	The message "Birth date cannot be in the future." appears; the date is not accepted.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Profile_004

Test Case ID	AUM_Profile_004
Test Scenario	Verify that the birth date auto-formats and the age is calculated.
Pre-Condition	The child profile setup is open.
Procedures	1. Type 04212022 into the Birth Date field without separators. 2. Observe the field and the calculated age.
Test Data	Typed digits: 04212022
Expected Result	The entry auto-formats as 04/21/2022 and the screen shows the calculated age (4 years old).
Actual Result	
Status	☐ Pass ☐ Fail

Module 4: Sensory Preferences

Project Name	Aumazing: A Gamified Learning App for Children with Early Childhood Autism Spectrum Disorder
Module Name	Sensory Preferences
Environment	Android release build 1.3.0 (versionCode 5)
Created By	

AUM_Sensory_001

Test Case ID	AUM_Sensory_001
Test Scenario	Verify that per-child sensory preferences can be adjusted and saved.
Pre-Condition	A child profile exists; the Sensory Preferences screen or Settings then Child Preferences is open.
Procedures	1. Turn Background Music on and choose a music style. 2. Adjust the music Volume. 3. Toggle Sound Effects and Vibration. 4. Set Animation Intensity and Prompt Speed. 5. Close and reopen the screen to check the saved values.
Test Data	Music: Soft & Relaxing; Volume: 50%; Prompt Speed: Slow
Expected Result	Each setting is saved and reopens with the chosen values, and the next play session reflects them.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Sensory_002

Test Case ID	AUM_Sensory_002
Test Scenario	Verify that every sensory stimulus has a working off state.
Pre-Condition	A child profile exists; the sensory preferences are open.
Procedures	1. Turn Background Music, Sound Effects and Vibration off. 2. Enter Child Mode and play any game.
Test Data	All three stimuli set to off.
Expected Result	No music, sound effect or vibration plays during the game.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Sensory_003

Test Case ID	AUM_Sensory_003
Test Scenario	Verify that a parent-built custom music mix plays in child mode.
Pre-Condition	Settings is open.
Procedures	1. Open Settings then Audio. 2. Select Custom Mix (3-5 tracks). 3. Choose three to five tracks. 4. Enter Child Mode and play a game.
Test Data	Tracks: any three tracks from the list.
Expected Result	The chosen custom tracks play as background music during the game.
Actual Result	
Status	☐ Pass ☐ Fail

Module 5: Screen Time

Project Name	Aumazing: A Gamified Learning App for Children with Early Childhood Autism Spectrum Disorder
Module Name	Screen Time
Environment	Android release build 1.3.0 (versionCode 5)
Created By	

AUM_Screentime_001

Test Case ID	AUM_Screentime_001
Test Scenario	Verify that the daily play limit stops child mode at the set time.
Pre-Condition	Settings is open; the caregiver can unlock the parent area.
Procedures	1. Open Settings then Screen Time. 2. Select Custom daily limit and choose 15 minutes. 3. Enter Child Mode and play until the limit is reached. 4. On the dialog, tap Exit Child Mode.
Test Data	Daily Limit: 15 minutes
Expected Result	The "Screen time is up" dialog appears with "Today's play limit has been reached.", offering Add 15 minutes and Exit Child Mode; Exit Child Mode returns to the parent dashboard.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Screentime_002

Test Case ID	AUM_Screentime_002
Test Scenario	Verify that the per-session limit ends a single play session.
Pre-Condition	Settings is open.
Procedures	1. Open Settings then Screen Time. 2. Select Custom session limit and choose 5 minutes. 3. Enter Child Mode and play one game for five minutes.
Test Data	Session Limit: 5 minutes
Expected Result	The message "This play session has reached its limit." appears at the end of the session.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Screentime_003

Test Case ID	AUM_Screentime_003
Test Scenario	Verify that no time-up dialog appears when no limit is set.
Pre-Condition	Settings is open.
Procedures	1. Open Settings then Screen Time. 2. Select No daily limit and No session limit. 3. Enter Child Mode and play for an extended period.
Test Data	Daily Limit: No daily limit; Session Limit: No session limit
Expected Result	No time-up dialog appears during the extended session.
Actual Result	
Status	☐ Pass ☐ Fail

Module 6: Pre-Assessment

Project Name	Aumazing: A Gamified Learning App for Children with Early Childhood Autism Spectrum Disorder
Module Name	Pre-Assessment
Environment	Android release build 1.3.0 (versionCode 5)
Created By	

AUM_Assess_001

Test Case ID	AUM_Assess_001

Test Scenario	Verify that a caregiver can start the gamified pre-assessment.
Pre-Condition	A child profile with no prior assessment; the parent dashboard is open.
Procedures	1. On the Start here card, tap Start Pre-Assessment. 2. Read "Let's Get to Know You!" and tap Let's Start!. 3. On the "Before you begin" dialog, tap I understand. 4. Complete the four assessment games: Copy Me, Do What I Say, My Turn, Your Turn and Match It.
Test Data	A child profile with no prior assessment cycle.
Expected Result	All four assessment games run in order and the flow ends without errors.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Assess_002

Test Case ID	AUM_Assess_002
Test Scenario	Verify that the assessment produces a summary and recommendations.
Pre-Condition	The fourth assessment game has just been completed.
Procedures	1. Open the Assessment Summary. 2. Review each section, then tap Go to My Path.
Test Data	A completed four-game assessment run.
Expected Result	The Assessment Summary shows Overall Performance, Game Results, a Developmental Profile across Communication, Social Interaction, Play Skills and Attention & Focus, and Recommended Activities; Go to My Path opens the recommended learning path.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Assess_003

Test Case ID	AUM_Assess_003
Test Scenario	Verify that a full assessment can complete offline and syncs later.
Pre-Condition	The device is in airplane mode; a child profile with no prior assessment.
Procedures	1. Turn on airplane mode. 2. Start and complete a full pre-assessment cycle. 3. Check the sync banner on the dashboard. 4. Turn airplane mode off and wait on the dashboard.

Test Data	Connectivity: none during the run; restored afterwards.
Expected Result	The assessment completes and the summary is produced on the device; the banner shows "Offline - N changes saved on this device" and then "All synced" after reconnecting, with no lost or duplicated results.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Assess_004

Test Case ID	AUM_Assess_004
Test Scenario	Verify that the free tier locks the fresh recommendation after one cycle.
Pre-Condition	Free plan; the child already has one completed assessment cycle.
Procedures	1. On the dashboard, start and complete another assessment cycle. 2. Return to the dashboard and review the recommendation card.
Test Data	Plan: Free plan; completed cycles: 2.
Expected Result	The card shows "Fresh Recommendation Locked" with "Subscribe to Premium to unlock a fresh personalized learning path after every assessment." and an Unlock button.
Actual Result	
Status	☐ Pass ☐ Fail

Module 7: Child Mode and Learning Activities

Project Name	Aumazing: A Gamified Learning App for Children with Early Childhood Autism Spectrum Disorder
Module Name	Child Mode and Learning Activities
Environment	Android release build 1.3.0 (versionCode 5)
Created By	

AUM_Game_001

Test Case ID	AUM_Game_001
Test Scenario	Verify that a child can complete a learning activity and earn a star.
Pre-Condition	A child profile exists; the parent dashboard is open.
Procedures	1. Tap Enter Child Mode ("Hand device to child"). 2. In the child lobby, open All Games and choose Match It.

	3. Set the difficulty to Easy and complete the game. 4. Tap Finish on the reward screen.
Test Data	Game: Match It; Difficulty: Easy.
Expected Result	The activity runs and accepts responses; "You completed the game!" appears with the stars earned; Finish returns to the child lobby.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Game_002

Test Case ID	AUM_Game_002
Test Scenario	Verify the turn-taking pacing in My Turn, Your Turn.
Pre-Condition	Child Mode is open at All Games.
Procedures	1. Choose My Turn, Your Turn on Easy. 2. Watch the demonstration and the hand-off to the child's turn.
Test Data	Game: My Turn, Your Turn; Difficulty: Easy.
Expected Result	The turn advances only after the demonstration and the wait interval complete, giving the child time to respond.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Game_003

Test Case ID	AUM_Game_003
Test Scenario	Verify that the Copy Me demonstration holds to completion on easy difficulty.
Pre-Condition	Child Mode is open at All Games.
Procedures	1. Choose Copy Me on Easy. 2. Watch the demonstration sequence.
Test Data	Game: Copy Me; Difficulty: Easy.
Expected Result	The demonstration sequence is held to completion (about three seconds) before the child's turn is offered.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Game_004

Test Case ID	AUM_Game_004
Test Scenario	Verify that a child can retry after an incorrect response.
Pre-Condition	Child Mode is open at any game.
Procedures	1. Respond incorrectly on purpose. 2. Follow the on-screen prompt to try again.
Test Data	Any game; an intentionally wrong response.
Expected Result	The child is prompted to try again (Again or Try again) and can retry without leaving the activity.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Game_005

Test Case ID	AUM_Game_005
Test Scenario	Verify that earned stars unlock and apply a costume.
Pre-Condition	The account has at least one star.
Procedures	1. Open Settings then Stars & Costumes. 2. Open My Costumes and wear an unlocked costume. 3. Enter Child Mode and observe the buddy.
Test Data	An unlocked costume from the Star Shop.
Expected Result	The chosen costume appears on the child's buddy in child mode.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Game_006

Test Case ID	AUM_Game_006
Test Scenario	Verify that every learning activity in the library opens and runs.
Pre-Condition	Child Mode is open at All Games.
Procedures	1. Open each game in the list once. 2. Interact with one trial in each, then exit.
Test Data	Games: Match It; Copy Me; Do What I Say; My Turn, Your Turn; Sari-Sari Store Sorting; Trace It; Tulong, Kaibigan!; Hintay!; Ano'ng Susunod?; Sabay Tayo!; Kumusta!; Ano'ng Nararamdaman?
Expected Result	All twelve games open, respond to touch, and can be exited without freezing.

Actual Result	
Status	☐ Pass ☐ Fail

Module 8: Parent Dashboard

Project Name	Aumazing: A Gamified Learning App for Children with Early Childhood Autism Spectrum Disorder
Module Name	Parent Dashboard
Environment	Android release build 1.3.0 (versionCode 5)
Created By	

AUM_Dash_001

Test Case ID	AUM_Dash_001
Test Scenario	Verify that all parent dashboard sections are present.
Pre-Condition	The parent is signed in and the dashboard is open.
Procedures	1. Scroll through the dashboard. 2. Review each card and section.
Test Data	An account with at least one child profile.
Expected Result	The dashboard shows Start here, Enter Child Mode, Therapy Directory, History & Progress, Aumazing Premium, today's screen time, Recommended Module, Skills Snapshot, Recent Activity and Sign Out.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Dash_002

Test Case ID	AUM_Dash_002
Test Scenario	Verify that the first-time guided tour presents every dashboard feature.
Pre-Condition	A newly registered account opening the dashboard for the first time.
Procedures	1. Step through the guided tour from Welcome. 2. Advance through each spotlight.
Test Data	A first-time account.
Expected Result	The tour presents Start here, Your child, Sync status, Child mode, Coming back, Settings and Sign out, and ends with "That's it"; it can be dismissed.
Actual Result	

Status	☐ Pass ☐ Fail

AUM_Dash_003

Test Case ID	AUM_Dash_003
Test Scenario	Verify that history and progress views render recorded sessions.
Pre-Condition	The child has at least one completed session.
Procedures	1. Tap History & Progress. 2. Open Overall summary and Advanced trends.
Test Data	At least one completed game session for the child.
Expected Result	Past sessions and progress charts render without errors.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Dash_004

Test Case ID	AUM_Dash_004
Test Scenario	Verify that parent-facing labels remain readable under enlarged text.
Pre-Condition	The device display settings are reachable.
Procedures	1. In the device settings, set the font size to the largest scale (about 1.3x). 2. Reopen the parent dashboard.
Test Data	Device font scale: 1.3x.
Expected Result	No parent-facing button label is clipped or replaced by ellipses at 1.3x text scale.
Actual Result	
Status	☐ Pass ☐ Fail

Module 9: Therapy Directory

Project Name	Aumazing: A Gamified Learning App for Children with Early Childhood Autism Spectrum Disorder
Module Name	Therapy Directory
Environment	Android release build 1.3.0 (versionCode 5)
Created By	

AUM_Therapy_001

Test Case ID	AUM_Therapy_001
Test Scenario	Verify that a premium parent can find centres near them and open directions.
Pre-Condition	Premium entitlement active; location permission granted.
Procedures	1. On the dashboard, tap Therapy Directory ("Centers near you"). 2. Tap Find near me. 3. Open a centre from the list. 4. Tap Directions.
Test Data	Device location within Davao City.
Expected Result	Centres are listed nearest first with their details, and Directions hands off to the device map application.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Therapy_002

Test Case ID	AUM_Therapy_002
Test Scenario	Verify that the free tier shows only the city-level directory.
Pre-Condition	The account is on the Free plan.
Procedures	1. On the dashboard, tap Therapy Directory. 2. Try to open a centre's details.
Test Data	Plan: Free plan.
Expected Result	The free tier shows the city-level directory with "Premium unlocks details"; Unlock locator leads to the upgrade screen.
Actual Result	
Status	☐ Pass ☐ Fail

Module 10: Premium and Subscription

Project Name	Aumazing: A Gamified Learning App for Children with Early Childhood Autism Spectrum Disorder
Module Name	Premium and Subscription
Environment	Android release build 1.3.0 (versionCode 5)
Created By	

AUM_Premium_001

Test Case ID	AUM_Premium_001
Test Scenario	Verify that a parent can upgrade to Premium through the checkout.
Pre-Condition	The parent dashboard is open on the Free plan.
Procedures	1. On the Aumazing Premium card, tap Upgrade. 2. Review the price line: 149 pesos for 30 days, one-time payment, never renews by itself. 3. Tap Upgrade with PayMongo. 4. Pay with a sandbox test card.
Test Data	A PayMongo sandbox test card; environment: provider sandbox, no real charge.
Expected Result	The payment completes, the message "Welcome to Premium!" appears, and the plan shows as Premium.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Premium_002

Test Case ID	AUM_Premium_002
Test Scenario	Verify that the Premium entitlement unlocks the gated features.
Pre-Condition	The account has just upgraded to Premium.
Procedures	1. Complete a new assessment cycle for the child. 2. Return to the dashboard and review the recommendation card. 3. Open Therapy Directory and open a centre's details.
Test Data	Plan: Premium; a new completed assessment cycle.
Expected Result	The fresh recommendation is unlocked after the new cycle and the centre details are visible in the directory.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Premium_003

Test Case ID	AUM_Premium_003
Test Scenario	Verify that cancelling the checkout does not grant the entitlement.
Pre-Condition	The premium upgrade screen is open.
Procedures	1. Tap Upgrade with PayMongo. 2. Close or cancel the checkout before paying.

Test Data	Checkout cancelled before payment.
Expected Result	The app returns to the upgrade screen; the plan remains Free plan and no charge is made.
Actual Result	
Status	☐ Pass ☐ Fail

Module 11: Offline and Synchronization

Project Name	Aumazing: A Gamified Learning App for Children with Early Childhood Autism Spectrum Disorder
Module Name	Offline and Synchronization
Environment	Android release build 1.3.0 (versionCode 5)
Created By	

AUM_Offline_001

Test Case ID	AUM_Offline_001
Test Scenario	Verify that the app offers guest access while offline.
Pre-Condition	The device is in airplane mode; the app is not signed in.
Procedures	1. Open the app. 2. Read the banner on the Log In screen. 3. Tap Continue as Guest.
Test Data	Connectivity: none.
Expected Result	The banner "You're offline - you can continue as Guest and sign in later." appears and guest mode opens.
Actual Result	
Status	☐ Pass ☐ Fail

AUM_Offline_002

Test Case ID	AUM_Offline_002
Test Scenario	Verify that offline gameplay is stored locally and syncs without loss or duplication.
Pre-Condition	The parent is signed in; the device is in airplane mode.
Procedures	1. Enter Child Mode and complete one game. 2. Return to the dashboard and check the sync banner. 3. Turn airplane mode off and wait on the dashboard. 4. Open Recent Activity.

Test Data	Connectivity: none during play, restored afterwards.
Expected Result	The banner shows "Offline - N changes saved on this device", then "Syncing N..." and finally "All synced"; the session appears in Recent Activity exactly once.
Actual Result	
Status	☐ Pass ☐ Fail
